港鐵學徒35周年紀念特刊

MTR Apprentice 35th Anniversary

前言 Foreword

港鐵學徒訓練計劃已踏入三十五周年，應說是一段不短的年月。若以人的年歲來計算，三十五歲正好是成熟的壯年，可以一展所長。

在這三十五年，已有超過一千二百多名年青人完成這訓練計劃，當中絕大部分都學以致用，現正在公司不同的崗位擔當著不同的重要角色，不單為公司的發展加添動力，亦為香港社會的進步作出貢獻。

為使大家對港鐵學徒訓練計劃有更深入了解，車務訓練部出版這本三十五周年特刊，更邀請不同年代的男女學員，分享他們受訓的感受。

我們在此衷心向訓練計劃的導師致敬，並祝願各畢業學員前程萬里。

The MTR Apprentice Training Scheme has entered its 35th year. This is not a short period of time. In terms of a person's age, thirty five years gives a person the prime of life when he or she can realize his or her full potential.

In these 35 years, over 1,200 young people have completed this scheme and most of them put what they learnt into practice as they are now holding various important positions in the Corporation. They have not only injected vitality into MTR's development, but also contributed to the advancement of society in Hong Kong.

To let you have a deeper understanding of the MTR Apprentice Training Scheme, the Operations Training Department issued this 35th anniversary publication. We invited apprentices from different generations to share their feelings about the training with us.

We would like to take this opportunity to pay tribute to the mentors of the scheme and wish all graduates a promising career.

人力資源總監張少華先生獻詞

我很高興看見港鐵學徒訓練計劃到達三十五周年的一個重要里程碑。至今這項計劃已成功培育出超過一千二百名學徒，而大部份畢業學徒亦繼續在公司工作，對公司及香港的發展作出貢獻。看到他們有很好的職業發展，我感到非常自豪。

公司投資學徒訓練是一個雙贏的局面。這個計劃不只令學徒們獲得技能和知識，也為他們在港鐵打開了一扇通往令人有滿足感及有意義的事業之門。為公司而言，這也是一個得著，除了營運現有的鐵路網絡外，在未來幾年，我們將完成五個新的本地策略性鐵路項目。國際上，公司亦將會繼續擴大業務。為了確保持續發展成功，我們需要更多有活力及高素質的年青技術人員配合公司發展。學徒訓練計劃為年青人提供專業技能、知識和信心，對公司的未來發展至為重要。

歷年來，公司在學徒訓練方面的成績有目共睹。公司的畢業學徒已連續第16年於職業訓練局舉辦的「傑出學徒/見習員獎勵計劃」中獲得獎項，這明確見證了我們不斷投放在人力資源及為業界培育人才的承諾。

藉此機會，我感謝各部門經理、訓練輔導員、前線員工及車務訓練部各同事。有賴他們的良好合作及不懈的努力，學徒訓練計劃得到卓越的成功。展望將來，我期望學徒訓練計劃繼續再創高峯，並祝願各學徒在港鐵中有光明的前途。

Message from Mr Morris Cheung, Human Resources Director

I am pleased to see our MTR Apprentice Training Scheme reaching a major milestone this year with the celebration of its 35th anniversary. To date, the scheme has developed more than 1,200 graduates, most of whom are successfully working at MTR and contributing to the growth of the Corporation and Hong Kong. I am very proud to see their career growth at MTR.

Our investment in apprentice training is a win-win situation. It benefits our apprentices as our training is not just about getting technical skills and knowledge. It also opens doors for a satisfying and meaningful career at MTR.

It is a win for the company too. In addition to the operations of the existing railway network, in the years to come, we will complete the five new strategic railway projects in Hong Kong. Internationally, we will continue to expand our business. To ensure our continued success, we need a strong workforce of energetic and high-calibre young technical staff to grow with the company. By giving expertise skills, knowledge and confidence to our young people, our apprentice training is absolutely vital for the future development of the Corporation.

Over the years, our success is evident. Our apprentice graduates have garnered Outstanding Awards from the Vocational Training Council for 16 years in a row. The results speaks loud and clear our commitment to investing in our people and nurturing talent for the industry.

Lastly, I would like to express my gratitude to our managers from different departments, mentors at the shop floor and staff of the Operations Training Department. Thanks to their seamless collaboration and hard work, we have achieved remarkable results in our Apprentice Training Scheme. I wish all apprentices a bright promising future in MTR. I look forward to seeing more milestones in the years ahead.

車務訓練主管曹恩明先生獻詞

我很高興能在這些年看著每一屆入職的年青學徒，他們接受完善及嚴格的在職訓練，工餘不斷進修，畢業後努力工作，學有所成。見證著他們的成長，那種喜悅，在心裏不斷重現，歷久常新。

車務訓練部作為港鐵學徒訓練計劃的培訓基地，肩負著重大的責任，要將這些年青學徒訓練成鐵路專材，除在工作技能上的訓練，更要使年青學徒學習到正確的工作態度，明白安全及責任在鐵路工作上的重要性。能夠完成這些艱巨的任務，全賴得到公司高級管理層，各維修部們的經理與前綫員工的支持和信任，以及車務訓練部各同事不懈的努力。

學習是終身的過程，學徒訓練只是起點，祝願各畢業學徒能夠不斷學習，不斷進步，做一個對公司及社會有貢獻的青年人，踏上事業的康莊大道。

在此，讓我再一次衷心感謝每一位車務訓練部的同事對學徒訓練計劃所作的貢獻。你們一點一滴的付出，累積成今天的成就。我盼望在未來大家繼續精益求精，令學徒訓練計劃的成就更上一層樓。

Message from Mr Steven Cho, Head of Operations Training

I am very pleased to have seen young apprentices joining the Corporation every year. They underwent comprehensive and rigorous training, studied after work, worked hard after graduation and became achievers. The pleasure in witnessing their growths and successes often refresh me from my heart.

The Operations Training Department (OTD) is the base of MTR Apprentice Training Scheme and carries a great mission of training up the apprentices to become professional railwaymen. It is not only training on skills, but also nurturing the apprentices the right working attitude as well as the importance of safety and responsibilities in railway operations. The success of these tough tasks relies on the trust and support from the senior management, line managers, front-line maintenance staff and the excellent efforts of every OTD training staff.

Learning is a lifelong process; apprentice training is only the start. I hope every graduate will continue to learn, to improve and to contribute to the Corporation and the society and move forward to their bright career in the future.

Let me once again thank all OTD training staff for their contributions in the Apprentice Training Scheme. Your every effort has paid for today's achievements. I am confident that in the future, you will continue to strive for making the achievements of the scheme from great to greater.

職業訓練局執行幹事暨學徒事務專員 尤曾家麗女士獻詞

培育人才 建設社會

今年是香港鐵路有限公司(港鐵)推行學徒訓練計劃三十五周年，我謹代表職業訓練局(VTC)致以衷心的祝賀。

港鐵自成立以來，建立了這龐大的集體運輸系統，成為香港人的主要交通工具。作為香港主要的鐵路系統營運商，港鐵一直以來為港人提供高效與優質的服務，並透過培育優秀年青專才推動行業發展，對社會發展及香港經濟發展貢獻良多。港鐵自一九七八年成立學徒訓練計劃以來，已培育逾千名卓越的鐵路技術及工程人員，涵蓋機械、電機、電子、屋宇裝備及土木工程等專業領域。我們喜見過去許多學徒畢業生榮獲VTC「傑出學徒/見習員獎勵計劃」獎項，成績有目共睹，可喜可賀。

完善的學徒訓練制度是促進社會人力資源重要一環。VTC一直與各行業緊密合作，使有志投身技術專業的年輕人能帶薪受訓，成為優秀的技術人才，為業界持續發展作出貢獻。

VTC與港鐵是多年的合作夥伴，秉持相同理念，以培育年青一代為目標，致力協助他們發揮潛能，貢獻社會。我們熱切期望在往後的日子繼續緊密合作，培育更多的業界專才，促進行業的持續發展。

Message from Mrs Carrie Yau, GBS, JP

Executive Director of Vocational Training Council and Director of Apprenticeship

Nurturing Talents Building the Society

On behalf of the Vocational Training Council (VTC), I would like to extend my warmest congratulations to the MTR Corporation (MTR) on the 35th anniversary of the introduction of its Apprentice Training Scheme.

Since its establishment, MTR has brought about fundamental changes in the way people commute within the city. As the leading railway operator in Hong Kong, MTR has contributed significantly to the economic success of Hong Kong through the provision of efficient and quality services and nurturing young professionals for the industry. Since the launch of the MTR Apprentice Training Scheme in 1978, the Corporation has successfully trained up over a thousand competent technical and engineering personnel in various fields including mechanical, electrical, electronics, building services and civil engineering. We are especially delighted to see that some of them were among the winners at VTC Outstanding Apprentice/Trainee Awards. The result is indeed very encouraging.

A sound apprenticeship scheme plays a pivotal role in the human resources development. The VTC has been working closely with the industry to enable young people to earn and learn whilst ultimately become skilled professionals, contributing to the sustainable development of the industry.

As a longstanding partner, the VTC shares with MTR the common goal of empowering our young people in unleashing their potentials and contributing to society. We look forward to the continued close collaboration in providing attractive career pathways for youngsters in Hong Kong!

卓振益先生 物資及倉務主管

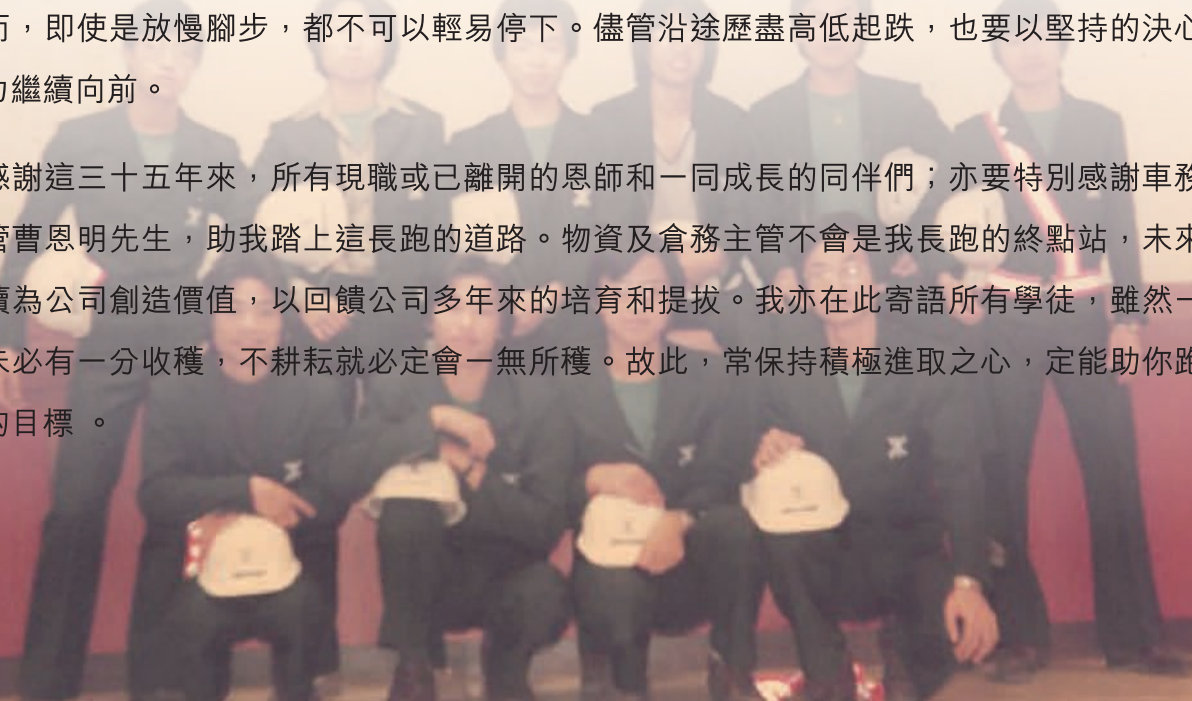

每天進步多一些 首先要感謝車務訓練部的邀請，讓我有機會分享這三十五年學徒和事業生涯的點滴和感受。

我在一九七八年十一月六日加入港鐵公司，至今已有三十五年。我以很普通的成績完成中學課程後，本可繼續家業，當個無憂的「太子爺」。但始終覺得不能發揮自己，便決定要創一番事業。因自小已對鐵路事業充滿盼望，故亦順理成章的加入了港鐵公司的首屆學徒計劃。

四年的學徒日子匆匆過去，我與一般年青人無異，對自己的前程也是毫無頭緒，人生漫無目的。畢業後，我加入了維修部門，得到晉升之餘亦成家立室。安穩的生活令我萌生「等退休」的念頭，工作態度變得散漫、得過且過，更幾乎被公司辭退。幸而，踏入三十而立的關口，眼見同期畢業的同學事業漸入佳境，我也反省自己不可再渾噩渡日。我決心摒棄以往的陋習，努力為自己建立正面形象，不斷求進，以挽救浮沈的仕途。低潮過後，我也尋找到人生目標，在物資及倉務部一展所長。我努力耕耘十數載，獲得了各個臻善圈獎項，並晉升至部門主管的職位，更得到公司的肯定，獲得了全公司最高榮譽的主席嘉獎。

我深信人生就如長跑，一開始精力充沛的時候只會亂跑亂衝，不但浪費氣力，更令人失去鬥志。然而，即使是放慢腳步，都不可以輕易停下。儘管沿途歷盡高低起跌，也要以堅持的決心和意志力繼續向前。

謹在此感謝這三十五年來，所有現職或已離開的恩師和一同成長的同伴們；亦要特別感謝車務訓練主管曹恩明先生，助我踏上這長跑的道路。物資及倉務主管不會是我長跑的終點站，未來我會繼續為公司創造價值，以回饋公司多年來的培育和提拔。我亦在此寄語所有學徒，雖然一分耕耘未必有一分收穫，不耕耘就必定會一無所獲。故此，常保持積極進取之心，定能助你跑向更遠的目標。

Message from Graduates/Apprentices:

Mr Chris Cheuk

Head of Materials & Stores

Keep Moving Forward Each Day First of all, I'd like to thank the Operations Training Department for the invitation and giving me an opportunity to share some moments and my feelings in these 35 years of apprenticeship and career.

I joined the MTR on 6 November 1978 and have been with the Corporation for 35 years. After completing secondary school with fairly average grades, I could have inherited my family business and become a carefree born-rich. But I felt unfulfilled and decided to build my own career. Since childhood I longed for a career in the railway industry so naturally I joined the 1st batch of the MTR Apprentice Training Scheme.

Four years as an apprentice went by quickly. Like other young people, I had no idea about my future and was having an aimless life. After graduating from the scheme, I joined the maintenance department, got promoted and started my own family. Leading a stable life, the thought of "waiting for retirement" was brewing in my head. I began to have a slack attitude towards work and was just trying to count the shiftless days. I was almost let go. Fortunately at the juncture of turning 30, while seeing my classmates who graduated at the same time enjoying their rising careers, I admonished myself to stop muddling along. I was determined to abandon my old bad habits and strive to develop a positive image to save my sinking career. After reaching a low ebb, I found my goals in life and demonstrated my strengths in the Materials & Stores Department. My hard work in the past few decades has earned me various WIT awards and the promotion to the position of department head. I received the highest honour – the Chairman's Award, gaining recognition of the Corporation.

I believe life is like a long distance run. At the start when you are full of energy you will dash and rush recklessly, wasting your strength and impairing your willpower. You slow down but you cannot stop. Despite the ups and downs on the way, you must keep moving forward with resolute determination.

I'd like to thank all of my respected mentors and companions who grew up with me in these 35 years – those still with the Corporation and those left. My thanks also go to Mr Steven Cho, Head of Operations Training, who helped me get on the track of this run. The Head of Materials & Stores will not be the finish line. I will continue to create value for the Corporation to repay its nurture and development. Here are a few words to share with all apprentices. You may not be rewarded for all your hard work but if you don't work hard you for sure will get no reward. Hence, keeping a proactive and enterprising mind will drive you to run towards a farther goal.

余漢傑先生

高級經理 - 企業風險

完成了職業先修教育後，我在1979年9月17日加入了地鐵公司，成為技工學徒。這3年的學徒培訓，完全改變了我的一生。當時總共有26名技工和技術員學徒。我們在訓練學校完成了半年的基礎技術培訓之後，被安排到不同的工程部門，接受在職培訓。

起初，我把訓練學校當作一個大遊樂園。我把時間花在玩樂多於學習，好像沒有什麼東西是對我重要的。但很感謝我的導師啟蒙——李先生，他不僅教導我技術上的知識，他同時亦教懂我人生的意義。他慈父般的關懷和其他導師的悉心指導，把我帶回踏實的道路。

在1985年，我離開了公司到英國繼續深造。然後在1995年，我再次重新加入這個大家庭。在此期間，公司已有了很大的改變，直至現在每天仍繼續在變化。唯一沒變的是公司仍然致力於人才培訓。公司在過去及現在已成功培育不少優秀年青學徒。我深信公司在未來將會繼續發展學徒訓練，為公司提供新一代傑出的維修技術人員。

最後，我要說，假如我沒有參加這學徒訓練計劃我也不能走到職業生涯中的這一個階段。謝謝您，訓練學校！

Mr Henry Yu

Senior Manager - Enterprise Risk

I joined MTR on 17 September 1979 as a Craft Apprentice after I completed the prevocational education. The 3-year apprentice training totally changed my life.

There were altogether 26 craft and technician apprentices in the Corporation at that time. We spent the first half year in the Training School for basic technical skills training before we were attached to individual operations engineering departments for on-the-job training.

At the beginning, I took the Training School as a big playhouse. I spent more time to play than learn and nothing seemed to be important to me. Thanks to my Instructor, Raymond Lee, who taught me not only the technical skills, but also the value of life. His fatherly care and the guidance given by other instructors in the Training School turned my mentality totally around.

Later in 1985, I left the Corporation and went to the UK to further my study. Then I re-joined the big family in 1995. The Corporation has changed a lot in the period, and still continues to change every day now. The only thing that has not changed is that the Corporation remains committed to developing talents. It has brought up many talented apprentices in the past. It is still doing so now and I am sure it will continue to do so in the future! I would not come to this point in my career should I not go through the 3-year formal training period.

Thank you, Training School!

工程師 - 軌道機器

轉瞬間，我完成學徒訓練已經有11年了，而港鐵公司的學徒訓練計劃亦有35年的歷史，原來時光已不經不覺就流逝了！

想起當初剛離開校園，正值亞洲金融風暴之時，因為學歷及工作經驗都有所不及，在找工作的時候往往都碰壁。正感到有點無奈之際，在求職資訊中看到了一則港鐵招聘學徒的廣告。當時心裏在想，能夠一邊工作，一邊讀書，既可以學習一技之長，又可以加強自己的競爭力，應該是一個不錯的選擇。於是，經過一輪面試，我便幸運地成為港鐵大家庭的一分子。

在往後的四年學徒訓練中，我在不同的組別跟隨師傅學習維修技術，並了解到不同部門的運作。由於當年我是在軌道組接受在職訓練，很多維修的工作都需要在夜間進行。通宵工作加上晚間高級文憑進修，確實是相當辛苦。幸好得到車務訓練部的導師、軌道組的師傅以及家人的支持與鼓勵，辛苦的日子很快就捱過了。

今天，我在軌道組擔任工程師一職。看到許多新加入公司的學徒，就好像看見當年的自己。我想藉著這機會在此對他們說：「學徒訓練已給你的事業一個好開始。只要你抱着認真積極的工作態度，向着目標努力，你必定能為自己創造美好的前程。」

Mr Ng Yiu Wing

Engineer - P-Way Machines

Time flies. I have already completed my apprenticeship for 11 years. And the Corporation's Apprentice Training Scheme is 35 years old. Time has really elapsed unknowingly!

I remember that I left school in the midst of the Asian Financial Crisis. Due to my low academic qualifications and limited working experience, I was often rebuffed when I applied for jobs. I felt a bit helpless at that moment. In an occasion, I saw a job advertisement about MTR apprentice recruitment. Then a thought came. If I could get working experience while studying, I could learn some skills as well as enhancing my competitiveness. It should be a good choice. So, after the interview, with a bit of luck, I became a member of the MTR family.

In the four years of my apprenticeship, I was attached to the masters in different maintenance units to learn maintenance skills and to understand the operations of different maintenance sections. Because I was under on-the-job training in the P-Way section, a lot of repair work was carried out during night shifts. Overnight work together with the higher diploma studies in evenings were really quite hard. Fortunately, with the support and encouragement from the trainers of the Operations Training Department, the masters in maintenance units and my family members, the hard days passed very soon.

Today, I am a maintenance engineer in P-Way section. I see many new apprentices joining the company as if seeing myself in early years. I would like to take this opportunity to tell them: "Apprentice Training Scheme has provided you with a great start in your career. When you hold a serious attitude at work and pay efforts towards your goal, you must be able to create a bright future for yourself".

維修工程師

在1985年，我中學畢業後便直接參加了港鐵技工學徒訓練計劃。這計劃結合了在職訓練、內部課堂訓練和工業學院進修。過程中，我學到很多維修技能和工程知識。我真的很喜歡這樣的經歷。在不同的組別接受的在職培訓幫助我建立一個有效的網絡。這些受訓經歷給了我在工作上的很大啟發，亦在我後來的事業發展提供了很大的幫助。

今天，我是鐵道車輛維修部的工程師。去年，我獲得了英國工程師學會的特許工程師資格及成為香港工程師學會的會員。這一切，都是由學徒訓練開始。

學徒訓練計劃在公司發揮著一個極具價值的功能。它不斷向各維修部門提供合資格的鐵路前綫維修人員。車務訓練部舉辦學徒訓練計劃35年，在業界獲得卓越的聲譽。

可以預見在未來幾年，前綫維修人員的需求將會很大。我向所有對鐵路工程感興趣年青人，全力推薦這學徒訓練計劃。我有信心，只要努力，學徒計劃畢業生必定能在鐵路事業上有美好前途。

Mr Cheng Cheuk Wai

Maintenance Engineer

I joined the MTR Craft Apprentice Training Scheme in 1985 upon graduation from secondary school. This scheme combined on-the-job training, in-house lectures and technical institute studies, in which I learned maintenance knowhow and engineering knowledge. I really love such experiences. The on-job-training across different sections helped me build up a useful network in the company. It also gave me great insights and helped my subsequent career developments.

Today, I am a Maintenance Engineer in the Rolling Stock Maintenance Department. Last year, I acquired the qualifications of Chartered Engineer in Engineering Council (UK) and Member of the Hong Kong Institution of Engineers. All these achievements started from apprentice training.

The Apprentice Training Scheme demonstrates a valuable function in the company. It continuously supplies competent railway workforce for front-line maintenance. The Operations Training Department has run the scheme for 35 years and has gained excellent reputations over the industry.

It is foreseeable that the need of maintenance staff will be huge in the forthcoming years. With no hesitation, I would recommend the MTR apprentice scheme to any youngster who is interested in railway engineering. I have confidence that if the graduates work hard, they will have a bright future in their railway careers.

我還是年青學徒在車務訓練中心接受訓練時，那些機器及設備，並沒有給我留下多少印象，但工場導師們的教誨卻銘刻五內。他們有一些在我中學母校老師身上找不到的特質，但在當時，我不懂如何描述這個特質；現在，從高級管理人員的智慧裏，我學會那正是「用心聽•用心做」。

記起當年還是新手的我進行焊接練習時，手不停的顫抖，突然感覺到有人站在我後面，從後握著我的手引導我如何焊接，他還輕輕的鼓勵我說：“放鬆，不用急.... 看.... 魚鱗焊”。這說明了工場導師們如何以「用心聽•用心做」，指導著一代又一代年輕工程技術人員，使他們的知識技能得以精益求精，博益求博。

除了車務訓練中心工場訓練外，在職培訓也是學徒計劃重要組成部分，學徒在多個不同的維修部門組別精進擴展其專業知識技能，為將來委身貢獻鐵路運營維修事業奠立堅實基礎。

Mr Anddy Lok

Assistant Training Manager

The machines and facilities of the Operations Training Centre workshops did not leave so much an impression to me as the trainers. They just had a special attribute I was not able to find in the teachers of my secondary school. I was not able to describe this attribute at the time. Now I have learnt from the current senior management's wisdom and find a word for describing this attribute. i.e. "listening-responding"

When I, a young novice, was welding my work piece with trembling hands, I felt someone standing right behind and holding my hands from behind and leading me on the welding skill. He also spoke to me in an encouraging soft tone "Relax. No hurry. Here you are, scale welding line."

That was only a glimpse of how the workshop trainers "listened and responded" to generations of young engineering staff and leading them to advance from great to greater.

In addition to the workshop training, the other major part of the training scheme was on-the-job training at various maintenance departments and sections. Someone may say "Jack of all trades is master of nothing". In my experience, I would rather say that "knowing something of everything" really was one of the cornerstones of knowledge and skills. The lack of this general knowledge will become a weak spot in the foundation of an engineering career.

大家好，我是二零零五年畢業的學徒梁嘉瑤。

還記得當年剛完成中七課程之後，面對着繼續升學及投身社會的人生決擇，真的感到前路茫茫。後來打開報紙，發現港鐵公司招聘學徒，便抱着好奇的心去應徵。結果成功獲聘，現在已於港鐵工作了十多年。

回顧學徒訓練的幾年光景，我與其他學徒一起受訓、學習，並於不同的部門實習。我覺得我比其他「細心」：每當我留意到一些細節時，我總會向師傅發問、了解。幸而師傅們也會不厭其煩地一一解釋。我因此獲益良多，而我亦深信學徒訓練計劃有着不能替代的意義。

當年受訓的時光至今仍然歷歷在目，宛如昨日，當中甜酸苦辣亦豐富了我的人生。我相信許多港鐵的學徒也有這個體會。我祝願學徒計劃能承先啟後，繼往開來，為港鐵公司培育更多人才。

Miss Leung Ka Yiu

Technician

Hi there! I'm KY Leung, an apprentice who graduated in 2005.

I still remembered after I completed F.7, I was at a loss to make a decision about furthering my education or joining the workforce. Later I read on the newspaper that the MTR Corporation was hiring apprentices and so I made my application out of curiosity. I got the offer and now I've been working for the Corporation for more than 10 years.

Looking back at those years of apprentice training, I trained, learnt and was sent to on-the-job training at different sections with my fellow apprentices. I believe I was more attentive and observant than others. When I noticed some details, I always asked my mentors to understand more. And they were very patient to explain to me everything. I learnt a great deal. And I believe that the Apprentice Training Scheme carries some irreplaceable values.

My training days were still so vivid to me as if they have just passed. The joys and sorrows I experienced have enriched my life. I'm sure other MTR apprentices would feel the same. It's my hope that the Apprentice Training Scheme will carry on the good old foundation and open up a bright future for the MTR Corporation by nurturing more competent people.

施巧輝小姐 第四年技術員學徒

加入港鐵學徒訓練計劃，我想應該是一個機緣。曾經有懷疑過自己能否完成訓練，卻從來沒有後悔過踏進港鐵，走入鐵路世界。因為它所帶給我的，並不是在其它地方可以得到。

在中學會考前，身邊的同學都各自報讀了好幾個升學課程，做足幾手準備。然而自己卻沒有這樣做，因為我並不想為升學而升學。我選擇了自修一年，重考中學會考。那一年一邊兼職，一邊讀書，感覺並不好受。知道讀書並不便宜，賺錢也都不容易。這情況令自己更加需要去思索未來應該如何，應該要捨棄甚麼，應該要捉緊甚麼。剛巧有個朋友對港鐵公司的學徒計劃感興趣，找我陪伴他一起申請。雖然當時我並不清楚計劃的詳情，但亦抱着一試無妨的心態申請。就是這樣，我找住了一個機會，成功加入公司。及後，我和其他的師兄日間一起接受在職訓練，一起工作；晚上一起到專業教育學院，學習工程理論知識，時間總是排得滿滿的。對我來說，高級文憑課程並不容易應付，但每次想到機會得來不易，亦可當作年青時的一個磨練，我就是這樣堅持下來。

在接受在職訓練時，我去到不同的部門實習，見識了不少事物，學習及接觸到很多列車維修的專業知識。更令我明白到每一個工作崗位都是很重要的，並不可以輕視。而每一位師父亦樂意教導我列車維修技術，令我愛上了列車維修。所有受訓時期的困難及辛勞，也變成動力。每一輛列車對我來說都是充滿著生命，每一天的檢查工作，都是為了使列車以最佳的狀態行走，而我對列車維修更是樂此不疲。

Miss Sze Hau Fai

4th Year Technician Apprentice

I trust that it was fate that I joined the MTR Apprentice Training Scheme. I had doubted my abilities to complete the scheme. Yet I have no regret about joining MTR and entering the railway world because MTR has given me a lot, which in other places I could not achieve.

Right before my Hong Kong Certificate Education Examination (HKCEE), many of my classmates applied for several further education programmes to secure their further studies. However, I did not do so. I decided to resit the HKCEE by self-study and self-financed by doing part-time jobs. During that year, I really didn't feel good. I realized the high cost of studying and I realized the difficulties of earning money. I called for a thorough introspection of what I had done. I had to make a resolution for my future. There were something that I need to discard and something that I should grasp.

It happened that my friend was interested in the MTR Apprentice Training Scheme and I applied for the technician apprentice post with him without knowing much about the scheme. Luckily, my application was successful. After joining, I have been receiving on-the-job training in various maintenance sections during the day and studying engineering theories at the Institute of Vocational Education in the evening. My time is totally occupied. For me, the Higher Diploma study is not easy, but I need to treasure this opportunity. I can stand this tough training since I am still young. I will not shrink from difficulties.

During my on-the-job training, I have been attaching to different maintenance sections, experiencing a lot of things. I learned a lot of hands-on know-how of rolling stock maintenance. I learned that every single job is important and should not be overlooked. All the mentors in the workshops are willing to teach me maintenance skills. And I fell in love with train maintenance. All the difficulties and hardship during the training become my motivations. To me, each train is full of life, and everyday inspection enables the trains to service in the best condition. I love working in train maintenance and will not get tired of it!

畢業學徒/受訓學徒心聲：

劉彥馥小姐 第二年技術員學徒

2011年的暑假正是我惆悵前路的時候，當時我十分渴望繼續升學，但因為學費昂貴，所以選擇投身社會工作。當時我看到港鐵公司網上招聘學徒的廣告，雖然我不知道什麼是學徒訓練計劃，更加沒有任何工程知識，但對我來說，這可是一種新嘗試。於是大膽地遞交了申請，亦幸運地被取錄，成為港鐵公司的學徒。

在技術員學徒訓練計劃的四年裏，公司會保送學徒到專業教育學院修讀高級文憑課程，令我可以繼續升學，而且每月的薪酬，可以讓我儲下來為大學課程作準備。雖然，一邊工作，一邊讀書實在令人感到有些吃力，但這樣也使到我的生活十分充實。讀書讓我增長知識，對我的工作亦很有幫助；而在職訓練令我大開眼界，我可以近距離親身感受從前在電視廣告上看到的鐵路運作，這些情景十分震奮我的心。

我在信號及電訊部門已經受訓了差不多2年，我亦需要和師傅一樣夜班通宵工作，學習一些行車時間不能進行的維修項目。期間我認識了很多師傅，他們與我亦師亦友，時常像爸爸般教導我，特別要我注意安全。除工作知識外，他們也教我人生道理，令我獲益良多。

雖然我是一個女孩，但我不怕辛苦，不怕操作重型工具，亦不怕骯髒。一路以來，我表現出我有能力勝任維修工作。曾經有師傅叫我考慮轉行，說因為維修工作對女孩子來說可能太辛苦了，而且通宵工作，對皮膚不好。他們更常常說笑對我說：「快嫁個有錢人吧！」但是我每次都回答：「我已與路軌結下了不解緣！」

Message from Graduates/Apprentices:

Miss Lau Yin Fuk

2nd Year Technician Apprentice

In the summer of 2011, I was puzzled about my future. I was very eager to continue my studies. But because of the expensive tuition fee, I decided to leave my student life and look for a job. At the time, I saw an apprentice vacancy advertisement on the MTR website. Though I had no ideas about the Apprentice Training Scheme and knew nothing about engineering, I was interested in the scheme and thought it might be a good attempt for me. So I boldly submitted my application and was fortunately hired as a technician apprentice in the company.

During the 4-year technician apprentice training, the company sponsors the apprentices for a Higher Diploma at the Institute of Vocational Education (IVE). So I can continue my study, and my income allows a provision for my future degree programme. Although studying higher diploma while working indeed is quite difficult, I feel I'm leading a very meaningful life. Studying theories has increased my knowledge and definitely helped my job. On-the-job training has amazed me as I could feel I was really close to the scene of railway operation which I could only watch on TV. I felt excited from the bottom of my heart.

I have been under on-the-job training in Signal and Telecom section for almost 2 years. Same as other maintenance staff, I need to perform overnight shift for some maintenance works which cannot be carried out during traffic hours. I have met a lot of technicians during my on-the-job training who became my friends and teachers. They always remind me of safety. They have been teaching me a lot, not only job related issues but also lessons about life.

Although I am a girl, I am not afraid of hard work. I am not afraid of operating heavy tools and getting dirty. I have been demonstrating my potential in becoming a competent maintenance staff. Many times, my fellow technicians asked me to consider changing career as such maintenance works may be too hard for a girl and overnight shift is no good for skin. They often joked with me and said: "Marry a rich guy!". But every time I replied: "I'm deeply in love with the railway!"

學徒訓練計劃概覽

Overview of Apprenticeship Training Scheme

港鐵公司之學徒訓練計劃始於一九七八年，乃根據學徒制度條例成立，並得到學徒事務署認可。時至今日，已有超過一千二百名年青人完成訓練。許多畢業學員現已於各工程部門內擔任要職，或晉身公司管理層。

受訓學徒除可透過有系統的在職訓練，從熟練人員身上獲得寶貴的工作知識和經驗外；亦可獲得導師的輔導及指引，促進個人發展，盡顯潛能。此外，公司亦會全費資助技工學徒及技術員學徒修讀指定之職業訓練局課程，以達致專業認可學歷。

The MTR Corporation's Apprenticeship Training Scheme was established under the Apprenticeship Ordinance in 1978, and has been recognized by the Office of Apprenticeship. To date, more than 1,200 young people have completed the training scheme. Many graduates are now in senior positions in engineering departments or in management positions of the company.

Apprentices apart from going through a systematic on-the-job training programme, gaining technical knowledge and knowhow from skilled personnel, also receive counseling and guidance for their career development from trainers and line training mentors. In addition, the company sponsors apprentices to attend designated VTC training programmes to acquire recognized academic qualifications.

訓練內容

- 認識港鐵公司、鐵路安全規則及鐵路系統；
- 工場安全及實務訓練 (包括電子、電氣及機械工場)；
- 專業鐵路系統維修訓練 (包括軌道、架空天線、信號及電訊系統、鐵道車輛及車站設備)；
- 輪調在職訓練；
- 指定部門深入訓練。

學徒訓練的監察

- 學徒事務署學徒督察會定期到公司訪問及了解學徒的訓練情況。
- 每一位學徒在訓練期間均有主任導師負責督導，並定期舉行班別會議。
- 學徒亦須按時呈交訓練報告，以便主任導師評估他們的進度。
- 各工程組別亦會委派督導員或工程師作為學徒在職訓練的輔導員。

其他訓練和活動

- 公司鼓勵學徒參與一些社會公益活動和公司的團體活動，如慈善腳踏車大賽和聖誕兒童遊戲日等。
- 表現良好的學徒亦有機會接受個人領袖外展訓練，以培養他們的領導能力。

Training Programme

- Appreciation of MTR Corporation, railway safety rules and railway system;
- Workshop safety and practical training (including electronic, electrical and mechanical workshops);
- Professional railway system maintenance training (including P-Way, overhead line, signal and telecom systems, rolling stock and station equipment);
- Rotational on-the-job training in relevant maintenance units.
- Final training in designated section for in-depth maintenance training

Monitoring of Apprenticeship

- Inspectors of Apprentices regularly visit the company and interview the apprentices to monitor their training progress.
- Trainers of the Operations Training Department, as class supervisors for individual apprentices, hold regular meetings with the apprentices.
- Apprentices are required to complete training reports for progress assessments.
- Line engineers and supervisors are appointed as training mentors to supervise apprentices during their on-the-job training.

Other Training and Activities

- The company encourages apprentices to participate in social charity and community activities and company events, such as the Charity Pedal Kart and the Christmas Children's Day.
- Apprentices with good working performance will be nominated to participate in the Outward Bound Training for leadership development.

職業訓練局傑出學徒/見習員獎勵計劃 得獎學徒芳名

Awardee List of VTC Outstanding Apprentice/Trainee Awards

為表揚有卓越表現的學徒，職業訓練局轄下學徒訓練及技能測驗委員會自一九九五年開始舉辦每年一度的傑出學徒/見習員獎勵計劃。計劃推行至現在，每年有十二名傑出學徒及十八名優異學徒獲獎，其中兩名傑出學徒更獲頒「尤德爵士紀念基金傑出學徒獎」。港鐵公司學徒已連續第16年於職業訓練局舉辦的「傑出學徒/見習員獎勵計劃」中獲頒殊榮，足見港鐵公司學徒訓練計劃成功及表現非凡。

Since 1995, the Committee on Apprenticeship and Trade Testing of the Vocational Training Council has been holding the Outstanding Apprentice/Trainee Awards events annually in recognition of the excellent performance of apprentices. Nowadays, 12 outstanding apprentices and 18 apprentices of excellent performance are awarded each year. Among them, two are awarded the Sir Edward Youde Memorial Fund Outstanding Apprentice Award. Since the inception of this event, MTR apprentices have won the awards for 16 consecutive years, demonstrating the extraordinary performances and success of the MTR Apprentice Training Scheme.
