## **MTR's Carbon Wallet becomes the first reward platform partner of EPD to promote recycling**

MTR is pleased that Carbon Wallet, a one-stop green lifestyle reward platform developed by its subsidiary, has recently become the first point conversion partner of EPD's GREEN\$ Electronic Participation Incentive Scheme to promote a green lifestyle. The trial collaboration scheme has connected the platforms of GREEN\$ and Carbon Wallet so that GREEN\$ members can convert GREEN\$ points into Carbon Wallet points to redeem various green rewards, including free MTR rides and green products. A more diverse option of rewards can help encourage the public to participate in recycling and foster a green culture in the community in the long run.

Carbon Wallet was established in 2021 and advocates a low-carbon lifestyle and sustainable consumption for cities. With its "Green In, Green Out" concept, Carbon Wallet encourages its users to earn points through carbon reduction actions and redeem various types of rewards that fulfill the principle of sustainable consumption. By promoting a holistic green lifestyle to its users and collaborating with local sustainable businesses, the platform also contributes to the development of a green ecosystem in Hong Kong.
