Sew your own doll and bring it to life!

	Located in Nantou Ancient City, Nanshan District, “CTRL+” offers a space for customers to create “life” with their hands. Here, you can sew your own doll as if nurturing a baby. From selecting fabrics and sewing the body, to filling it with soft cotton, every stitch is infused with patience and emotion.
	The studio features a vibrant sewing area full of creativity, with floral cotton fabrics, rainbow-coloured wools and sewing kits laid out on the tables. Customers can choose from basic shapes such as bears and bunnies or customise the shape of their dolls. During sewing, they can also add a wishing note inside the doll.
	Once completed, the shop provides free cotton filling service to bring your creations to life. Each doll is then packaged in a dedicated paper box and accompanied by a “birth certificate” with an ID number, a handwritten name and “date of birth”. This ritual is perfect for adults to sooth their tired souls, making it a wonderful interactive activity for parents and children.
	For DIY enthusiasts, this is both a “healing place” to relieve stress and a “dream factory” to create unique memories. If you are not confident in your sewing skills, ready-made dolls with adorable designs are also available in-store .
