

**【Shenzhen】 Healing sounds for the soul
Settling your mind, one note at a time!**

The handpan, also known as the handpan drum, is a modern percussion instrument that has grown in popularity in recent years. With its distinctive “flying saucer” shape, the instrument resembles a work of art. The lightest touch produces metallic resonances that ripple like water, creating a warm and soothing sound. It is widely used in musical performances, meditation and yoga. Its deeply healing sound is also frequently featured in videos and advertisements, immersing listeners instantly.

“Guiyuan Handpan Cabin”(「龜源手碟小木屋」), Shenzhen’s signature handpan store, offers a sense of comfort with its white cabin exterior.

The interior is furnished simply with sofas and bean bags, creating a spacious and relaxed environment. Visitors are welcome to try out a variety of handpans freely. Professional guidance from staff is also available to help guests choose the right range before making a purchase.

Apart from retail, the store provides after-sales services such as repairs, tuning and accessories. Regular workshops, trial lessons and exchange events are also held, attracting handpan enthusiasts and creating an atmosphere that is sometimes even livelier than inside the store.

Whether you are a beginner or an experienced player, you are sure to find a handpan that suits you here. You can also experience the instrument’s calming sounds that resonate deep within the soul. Friendly reminder: Weekend trial lessons require booking at least one day in advance.
