

【Shenzhen】Children's Museum

Exploring the world through learning in a fun way!

	<p>The Shenzhen Children's Exploration Museum is a public museum for children. Since its opening, the museum has been highly popular. The two-storey museum covers an area of 4,000 square metres, with six themed exhibition areas and hundreds of interactive programmes.</p>
	<p>As the first children's museum with the theme of "Curious Children" on the Chinese mainland, exhibition areas, namely "Our Natural World", "Energetic City", "The Story of Water", "My Body", "Kissing Babies" and "Sensory House", were all designed from a child's perspective. Children have ample room for imagination as they stroll around urban and natural scenes, exploring the mysteries as little adventurers, learning about co-living with nature through playing, understanding the human body and exercising their senses while having fun.</p>
	<p>The museum also offers a wide range of educational and cultural activities, including humanity and history, festivals and customs, sports and health, and physical science, making it a popular choice for both children and parents .</p>
