“Since being introduced in 2004, the Airport Express Group Travel Promotion has been popular among airport passengers as it offers good value for money,” said Mr Sammy Wong, Head of Operating – West Region.

The Airport Express provides passengers with a fast, safe and reliable train service to the airport as well as a range of add-value services such as In-town Check-in, free Wi-Fi hotspots at stations and on-train mobile device power charging facilities. The Corporation continues to invest in service enhancements such as the newly launched QR Code on-line ticketing system for website and mobile ticket purchase to help make planning for journeys even more convenient and flexible.

“We would like to take this opportunity to thank Airport Express customers for their support over the years, which has helped the service to be recognised internationally as one of the best airport railways in the world. This is reflected in the numerous awards the Airport Express has won including most recently, the Global AirRail Awards 2015,” Mr Wong said.

For tourists, MTR also offers different types of Day and Travel passes that provide unlimited travel on MTR, Light Rail and MTR Bus for designated periods of time with some including rides on the Airport Express.
