

Exhibition Centre Station Topped-out

The topping-out of Exhibition Centre Station today (12 November 2020) marked another major milestone of the new railway extension which brings the East Rail Line across Victoria Harbour to Admiralty Station. Situated in the heart of Wan Chai North, Exhibition Centre Station will be the new entry point for business and trade professionals from all over the world to one of Hong Kong's commercial hubs of conferences and exhibition activities.

Today's topping-out of the station also signifies the substantial completion of the civil works of the Hung Hom to Admiralty Section. Installation of the railway systems and architectural finishes at the station is already under way. Exhibition Centre Station is a 3-level underground station with two entrances connecting with the existing pedestrian facilities and adjacent office buildings. The station will become an integral part of the Wan Chai North business area serving nearby commercial complexes, hotels and the Hong Kong Convention and Exhibition Centre.
