## Press Release

PR047/26  
9 July 2026

### **MTR Corporation Welcomes Government's Invitation to Commence Detailed Planning and Design for Pak Shek Kok Station Project**

MTR Corporation welcomes the Government's announcement today (9 July 2026) that the Chief Executive in Council has approved inviting the Corporation to commence detailed planning and design for the East Rail Line Pak Shek Kok Station project, with the target of completing the station works no later than 2033.

The East Rail Line is an important public transport backbone connecting boundary control points, the New Territories, Kowloon and Hong Kong Island, serving the commuting and daily travel needs of the public. The proposed Pak Shek Kok Station will be located between the existing Tai Po Market Station and University Station on the operating East Rail Line. The Corporation will endeavour to strike a balance between railway operations and project progress. Through rigorous planning at every stage of the project, it will address the complexities involved in the planning and construction works. In addition to Pak Shek Kok Station, the project also includes the reprovisioning of The Education University of Hong Kong Sports Centre. As the station is located close to the Pak Shek Kok residential area and the Science Park, the project will provide pedestrian links and an elevated footbridge across Tolo Highway between the station and Chong San Road to enhance connectivity in the area.

Ms Jeny Yeung, Chief Executive Officer of MTR Corporation, said, "MTR has long been committed to providing quality railway services and keeping cities moving. The Corporation has been advancing new railway projects in support of the Government's city development plan. We are advancing into the detailed planning and design proposals of the project, with a view to providing more convenient transport services for the community and in support of the development of innovation and technology in Hong Kong."

MTR Corporation will continue to uphold its "Rail plus Community" approach, actively advancing the planning and design for Pak Shek Kok Station and working closely with the Government.

-End-

---

## About MTR Corporation

To Keep Cities Moving, MTR makes encounters happen and rendezvous for a more connected tomorrow. As a recognised world-class operator of sustainable rail transport services, we are a leader in safety, reliability, customer service and efficiency.

MTR has extensive end-to-end railway expertise with over 45 years of railway projects experience from design to planning and construction through to commissioning, maintenance and operations. Going beyond railway delivery and operation, MTR also creates and manages dynamic communities around its network through seamless integration of rail, commercial and property development.

With more than 46,000 dedicated staff\*, MTR carries over 13 million passenger journeys worldwide every weekday in Hong Kong, Chinese Mainland and beyond. Together, we Go Smart and Go Beyond.
